DETAILED ACTION

1. This office action is in response to amendment dated: 10/25/06. Based on this amendment, out of pending claims 1-48, claims 10, 30, 36 and 43 have been cancelled and remaining claims are 1-9, 11-29, 31-35, 37-42 and 44-48

Allowable Subject Matter

2. Claims 1-9, 11-29, 31-35, 37-42 and 44-48 are allowed.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose, teach or suggest directly, or indirectly the following limitations in combinations with other limitations of the claims:

As recited by claim 1,

“selecting a desired data rate capacity above a data rate capacity of the radio channel as indicated by a current rate value if the usage remains above a maximum usage threshold for a first qualified period of time, requesting that the radio channel be configured for the desired data rate capacity, receiving information bearing on an assigned data rate capacity if the request was granted, and updating the current rate value to reflect the assigned data rate capacity; and decreasing the data rate capacity of the radio channel if the usage remains below a minimum usage threshold for a second qualified period of time”

Art Unit: 2617

As recited by claim 27,

“starting a high duration timer to time a period of time that said channel utilization exceeds said first utilization threshold; and deferring any action to increase said data rate capacity until said high duration timer reaches a predetermined high condition count”.

As recited by claim 34,

“determine the usage as a percentage utilization value based on comparing an actual amount of new communication traffic sent over the radio channel over the defined interval of time versus a maximum amount of communication traffic that could have been sent if the radio channel was fully utilized”.

As recited by claim 42,

increase a current data rate capacity of the radio channel if the usage is above a defined maximum usage threshold; and decrease the current data rate capacity of the radio channel if the usage is below a defined minimum usage threshold; and de-allocate the radio channel if the current data rate capacity of the radio channel is at a minimum and the usage is below the defined minimum usage threshold.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
